Jalopy is a great addition to the Laika line of cars and the first use of the new Laika 601 Deluxe model. Based on the historical prototype Jeep, the Laika 601 Deluxe has many of the features which later brought the Laika to the forefront of the pre-war racing world. With a curb weight of just 2,030 kilograms, Laika are in no doubt the lightest car in the game. And the off-road abilities of the new Laika make it a great way to get from the city to the European countryside. A few problems arise when you introduce a car that can perform both on the dirt roads and the cobblestone streets. Balancing the Laika's speed on both types of road is difficult enough, but dealing with the start and stop of the car is another issue. While the Laika's short wheelbase can make fine-tuning both sides a headache, the Laika's off-road abilities are still more than capable of handling the pretty non-desirable yet very present obstacles of city streets. Jalopy is definitely the sequel that fans of the Laika have been waiting for. Instead of just that, Jalopy is the real thing. And it is also the official soundtrack for Jalopy! - Track list:01 - Meinen Laika02 - Lange Reise03 - Dresdner Automobilclub04 - Harmonikatalas05 - Krugovi06 - Dunajvros Daytripping07 - Let's Go For A Drive08 - Plazhen Tants09 - Balkan Girl I Love You!10 - Yuva Hatralar11 - Anthem Zu LiebenMusic Written, Produced, Recorded and Mixed by Jeremy Warmesley.www.jeremywarmesley.com(The Jalopy Official Soundtrack has removed the audio effect applied to the songs in game which replicates the Laika speakers. This soundtrack contains clear high quality audio for your listening pleasure!) The Laika 601 Deluxe is the first Laika to be equipped with an exclusive MP3 CD player, combining the convenience of CD technology with the high quality sound that is expected from an off-road vehicle. The CD, which is installed in the center console, is a full-function copy. The Laika's audio system has been completely redesigned. The speaker design now exhibits a broader sound, reflecting the vehicle's new off-road abilities. The amplifiers and speakers are installed in the fenders, mirroring the design

costumes are now available to download What is better than leading a party of Link to the Past's finest down into a dark corridor full of weirdly-coloured short guys, frightening things and a bunch of fluffy toy foxes? Bouncing through the darkness, at night, in the middle of winter, and dodging scary things! Sounds perfect, right? It's good news, the new Bouncing Hero costume for your Warrior of Light is ready to play today, and fully-controllable with the new Motorcycle class skill. There are a number of new 'minigames' in the game as you explore the castle, and the new costumes expand the territory of the combat minigames. Enemies drop toys, you can go fishing, and the Huntress can transform into her stuffed-toy look. The costumes are perfect for a first and second playthrough, and if you were a boy! There is also a new costume for the Pirate Ship to dress up the Pirates.

Bouncing Costume categories The Bouncing Hero costume is available in five combat classes: The Dragon Knight is a human who wears a glaive, shield and a helm. At night, he is a shining knight in shining armour, always ready to cut a way through the darkness. During day, he is a gloomy, disgruntled ghost who has lost all his good qualities over the years. The Archer is a minor heroic thrown away, along with his skills, and now is a virtual shopping salesman in the final celebration of the Great Halted Exposition. The Sniper is a female superhuman armed with a modern rifle. She can hunt down the wretched enemies down by twisting the recoil and pulling the trigger. Some fragile, stumbling ogres are for sure on her wishlist. In the bike class, the Warrior of Light walks like Indiana Jones, having nabbed the knack from Adrian. Whisky boots and high-powered carnal excesses are the weapons of the exclusive motorcycling warrior. The Huntress transforms into the brave Captain Hanna from the original LttP, her clothes already fitting perfectly under her new cat-like look. She is adored by men, and her braided ponytail and strong eyebrows provide leadership to the brave heroes who

follow her. They also drop chocolates when they fall. This is a recent feature, and involves four skills in total that are not yet tradable in the Skill Store. You can buy
